It is eminently fitting that the Appeal of Conscience Foundation honours His Excellency President Richard von Weizsacker, one of the outstanding leaders in the world today. As one who has worked with him and continues to do so in order to heal the wounds of the past and to advance the cause of mutual cooperation leading to a better and brighter future, I can testify to his great stature as world leader of conscience and moral standing. He has been a major force in forging the conscience of his nation and in his moral leadership writing a luminous page of mankind's contemporary history.
